AN OPEN LETTER

To the Builders of Edmonton District.

Gentlemen: No doubt you have heard and read in the papers recently a great deal about the so-called "LUMBER COMBINE,"

and the consequent advance of prices. In this connection a few statements of fact from us may be in order.

The manufacturers of British Columbia advise us that the advance in prices is due to the increased cost of labor and of materials and that this justifies the advanced price to the trade. Whether this is true or not we are not in a position to judge.

But we do know that it is very difficult to get orders for B. C. lumber filled with any degree of promptness. Many of the mills are sold out of stock and cannot at present ship a car. We therefore claim that the advanced prices are due to scarcity of lumber. The price of any commodity is regulated in our day not so much by the cost of production as by the general demand for the commodity.

As to our own prices we beg to say that we are careful to see that they bear a right relation to cost. We cannot help the rise in B. C. lumber because the cost price is considerably advanced. But in the line of our own manufacture such as Windows, Doors, Frames, etc., our prices are lower than the prices for the same articles either in British Columbia or Manitoba. This will indicate to you our position in this matter.

In view of the scarcity referred to if you are building or intend to do so, we advise you to place your order with us as soon as possible so that we may get in a position to fill it when required. We promise to do the very best for our customers that circumstances will permit.

Very Truly Yours,

Bulletin Correspondence.

The House is reassembling today after the Easter holidays and the real work of the session is commencing. The 22nd distribution Bill is to receive a second reading today. In its present state it does not contain a schedule of the constituencies. That remains to be arranged by the special committee which will be named today. All reports as to the number of constituencies are correct but reports given out as to their arrangement were necessarily imaginary.

Nothing has yet developed in connection with the railway question. There seems to be a little known here as elsewhere as to whether the Grand Trunk Pacific and Canadian Northern are coming to terms or not, and if not what will be the course of the government in granting aid, or arranging for the construction of a railway through the Saskatchewan Valley. Every day's delay increases the possibility of nothing important being done this year.

The first load of Barr colonists passed through Ottawa yesterday, occupying three C.P.R. trains. The trains remained for half an hour at the railway station and were visited by many of the citizens and representatives. The colonists gave a most favorable impression, being of a class distinctly superior to any emigrants Canada has yet had from across the Atlantic. A considerable portion of them will remain in Manitoba for a year at least, to become acquainted with the ways of the country before going out to the territories but about two-thirds are on their way through. A very large proportion of them are evidently people of some means and the only trouble is that they may be found to be better supplied with money than with days' work.

John Kennedy, farmer delegate from Edmonton to the Old Country, reached Ottawa yesterday on his way home; but is going to spend a day or two amongst his former neighbors around Stratford, Ontario, before going west. He spent a month in a jail of Ireland, working out from Belfast, and found the people most favorably disposed towards Canada and Canadian emigration. The rush to the Canadian West from the North of Ireland this year will be a very important feature of the total British emigration notwithstanding the agricultural prosperity prevailing there. Many of the prospective settlers seen by Mr. Kennedy, are already on their way out, and every inducement was held out by the people there to him to remain in Ireland for a longer period in order to give further information about Canada. Mr. Watson, delegate from southern Manitoba, who had visited his former home, the county of Norfolk, England, was with Mr. Kennedy and gave a very similar report. The farmer delegates being practical men had no difficulty in giving attention from the practical farming men of Great Britain. They found considerable opposition to their movement from the employers of farm labor, but while there was necessarily a desire on the part of the employer to keep the labor at home they recognized the necessity of emigration, and were willing to accord Canada a preference.

There is no doubt that the visit of these farmer delegates from the west is the first important practical move towards securing a large emigration of a desirable character from Britain to Canada. It is to be hoped that the evidence thus afforded of the proper method of going into this work will be taken advantage of in the future operations of the emigration department in the Old Country.

TIPS FROM THE TERNOR.
Mr. Speaker and Gentlemen of the Legislative Assembly:—
I have much pleasure in welcoming you to the First Session of the Fifth Legislative Assembly of the Northwest Territories.

During the past year, in common with our fellow subjects throughout the Empire, we heard with grief and alarm of the illness of the King, and I am sure that we all rejoiced in His Majesty's restoration to health and in the successful carrying out of the coronation ceremonies.

The abundant harvest of the past year, the general prosperity of the country and the remarkable growth of the Territories in material wealth and population must all be a source of profound gratification.

But these circumstances, gratifying as they are from a national standpoint, have immeasurably increased the duties and responsibilities of the Northwest Government and Legislature.

For some years past the Government and Legislature have been pressing upon the Federal Government the absolute necessity for larger powers and revenues if the duties and obligations already imposed upon them by Parliament and the further obligations imposed by new conditions are to be adequately fulfilled.

In their latest negotiations with the Federal Government, my government again forcibly impressed the immediate necessity for the granting of Provincial Institutions to the Territories.

Strong representations have also been made with regard to the present financial necessities of the Territories.

As a result of these representations a conference was held at Ottawa in the month of February last between members of my Government and a Sub-Committee of the Privy Council appointed for that purpose.

I regret to say that no intimation has yet been given by the Federal Government as to the action they propose to take as a result of the Conference.

All the papers relating to these important subjects will be laid before you, and you will be asked to take such action as may seem desirable to further enforce the just claims of the Territories.

I feel it to be my duty to ask your attention to the important question of transportation.

This question is partially bound up with the Provincial question, but in some of its larger phases falls more peculiarly within the Federal domain. In view of the transportation conditions prevailing since the close of lake navigation last year, and which threaten to continue in a more aggravated form during the year to come, I feel justified in asking you to consider the advisability of making some representations to Parliament with regard to a question which so vitally affects the welfare of the Territories.

The claim which has been made on the part of the territories to the public domain will also justify an expression of opinion on your part with regard to further alienations of the public lands of the Territories for railway or other purposes except actual settlement.

In response to a request by my Government an Federal Government has consented to extend the jurisdiction of the Legislature to the important subject of land titles, and legislation to that effect has been promised at the present session of Parliament. This important extension of your powers will necessitate legislative provision for the maintenance and control of the land titles system, and a measure for that purpose will be presented to you. Federal legislation has also been promised which will give to the Legislative Assembly the right to fully control the qualification of its members, to legislate with regard to the constitution and jurisdiction of Civil Courts and other matters at present withheld from you by the provisions of the North-West Territories Act. Measures necessitated by these further extensions of your powers will also be submitted to you.

Your consideration will also be asked to Bills relating to Mechanics' Liens, Drainage, Mutual Fire Insurance and Succession Duties.

Your attention will be invited to Bills to amend the law relating to Civil procedure and the sale of intoxicating liquor, and a Bill to amend and consolidate as amended the law relating to Brands.

A statement of the receipts and expenditures of the past year and the estimates of expenditure for the current year will be laid before you. I now leave you to your deliberations with every confidence that your labors, under Divine Providence, will be directed to the advantage and welfare of the Territories.

EGG LAKE.
There is considerable water around the edge of Egg Lake, and the quack of the duck gives notice that spring is here without doubt this time. Blackbirds, too, are quite plentiful and robins have been seen.

On Tuesday night T. Williams stopped at Legans with a party of five settlers just arrived from England. They were bound for the Edison settlement and several other members of the same party passed the night at Morinville, going on next day across the lake. It is reported that 120 homesteads have been taken in the Edison Settlement since the end of January.

Word has been received of the death of St. Albert of the little daughter of J. B. L. Hironde. Several members of the family went down on Sunday to attend the funeral.

Joe Maloney of St. Albert passed here today on his way to the settlement north of Egg Lake, where he will investigate with a view to finding something valuable in land.

STORE NEWS

THE STORE OF THE TOWN.

Perfect Store-Keeping is Our Aim

In every act we try to approach the standard of perfect store keeping. While no house can hope to reach this goal at a single bound, we make it our daily endeavor to progress toward the ideal, which we have set as a standard. We believe that quality and liberal policy are the superstructure, because low prices have little or no significance if quality is lacking; and a liberal policy that insures an exchange of merchandise or your money back if dissatisfied lends an air of freedom and independence to shopping that robs it of objectionable features. Our liberal policy has done more toward making shopping a pleasure than a mercantile innovation ever warranted, because we live up to it by making it the first law.

LACES & EMBROIDERIES

AIRY, FAIRY LACES. If we could tell the beauty of this display of cowweby flintines, these "own experts of the dew" hesperated creation of the insect which spins its silken threads at night to glisten in the story of the Spring morning, it would make our lovely laces no more real. Come and see them.

Lovely NEW EMBROIDERIES. Exactly these fine choice edges on nice cloths that appeal to women who desire quality.

BOOTS & SHOES

BOYS' & GIRLS' SHOES. Good, reliable shoes for school or dress. If every mother in Edmonton knew how good and low priced are the shoes for children which we have, we should still have to say something about them every little while out of pure enthusiasm, and to let the newcomers to Edmonton know that the best is always the cheapest; and we have the best for your money.

Men's and Boys' Women's, M'-se' and Children's RUBBER BOOTS in all sizes. Shoe department on main floor, rear of left hand aisle.

MEN'S CLOTHING

"BE WELL DRESSED this Spring." There's a prosperous look to the well dressed. We can dress you. "Facts are stubborn things" and when we advertise the best clothing for little money and back up the statement with the goods it is not hard to convince you that there are many reasons why we hold our patrons and why we are able to make so many new ones.

Picadilly Suits \$12 to \$30
"Overcoats \$10 to \$22.50
Picadilly Trousers \$3 to 6

MEN'S HATS

BROWN IS THE FAVORITE COLOR. The solid demands it of most every shade. We have just twenty-five different styles of hats, both soft and stiff in all manner of browns. Also black, if you prefer it. They include the latest fashions, sponsored by the Charge-for-the-label hat, and a few exclusive ones. We ask \$2.50 for the hat—nothing for the label, yet it identifies as much style and material quality as any of them.

The alterations recently made in our store, being completed, give us the largest Clothing and Men's Furnishing establishment in Edmonton, and we have gone to considerable trouble to have the interior finish and lighting as choice as the store is large.

Having now the necessary room to properly show our goods, we have made good use of our opportunities and have spared neither pains nor expense in the fittings and the displaying thereon of our goods, to which we have added a large assortment in spring lines of

OFFERS ON

MONDAY, MAY 4TH, 1903,

200 LOTS

50 X 150

ON

Kenneth Macdonald Flats

The Finest Alluvial Soil on Earth.

* * * * *

On each Lot enough may be grown to support a family.

The property adjoins Little's brick yard on the South, the Experimental Farm on the North, and overlooks the Saskatchewan on the East.

The opposite bank of the river, rising in natural terraces from the water's edge to an average height of 150 feet, beautifully wooded, affords A PANORAMA OF HARMONY AND DELIGHT.

Edmonton has passed the experimental stage, and will possess in a few years a metropolitan population.

The Railway Question is settled. The Canadian Pacific, Grand Trunk and Canadian Northern are assured quantities.

A fact not generally known substantiates that Edmonton will be a terminus for some years, is that the carrying capacity of the Canadian Pacific exceeds the Oriental and British Columbian trades combined, and the three great roads mentioned will halt before pushing on to the Pacific, thereby making our city of vastly more importance than it would otherwise have been.

Much of the timber is primeval. The principal streets will be boulevarded, and ancient growth furnish overshade.

Maps and schedules of prices open for inspection at W. H. Hooper Company's Office on May 4, 1903.

FORT SASKATCHEWAN

An error was made in our issue of the 13th inst. in stating that the new buggy presented to Rev. Mr. d'Esmum was given by St. George's congregation of this place. This was largely subscribed to by the English-Church congregations of Partridge Hills and Agricola. There was a surplus of over \$30 which was given to the Ladies' Aid of St. George's church to assist in building a new parsonage.

INNISFAIR

Those who attended the concert in the Presbyterian church, given by Miss Jessie MacLachlan and her talent company, enjoyed a rare treat. The program consisted of Scotch, English and Irish songs, and the manner in which the Holy City and Barney O'Hea were rendered, showed the Scottish prima donna's talent was no confined to the singing of Scotch songs. Miss Dean's masterly playing on the violin at once made her a favorite with the audience. Both ladies were loudly applauded and were most generous in responding to the numerous encores. Mr. MacLachlan proved himself a most capable accompanist on the piano. We understand that Miss MacLachlan has announced her intention of again visiting Innisfair on her return to Canada. It is needless to say that her visit will be eagerly looked forward to.

Mr. Jas. Brewster has been appointed Dominion Land Guide at this point, as Mr. Brewster is one of our oldest settlers his services should prove of great value to those looking for a location.

Mr. Gordon, the organizer for the Sons of Scotland, has been in town with the object of securing material to form a Camp, as the farmers are all busily engaged seeding. Mr. Gordon has decided to return at a later date.

Amongst the more recent arrivals are: Mr. Berry, Nanaimo, B.C.; Mr. Snider, Sumas, B.C.; Mr. S. Brogan, Tilbury, Ont.; Messrs. Dixon, Edson, Biddard, Sparrow, and Palsen from England.

The surveys conform to existing ones, and the streets will be projected to their legitimate confines. Building Sites on the verge of the hill overlooking the mighty Saskatchewan, the foliage and verdure of whose banks is not exceeded by the fiercest tropics or softest Pacific scenes, abound. Prices will be uniform and moderate, tempered as a corrective of the present indefinite craze.

WHITE WHALE LAKE
New settlers have been arriving recently direct from England. We welcome them and many more of the same kind—men who are loyal to the country; who do not pretend to know it all but are ready and willing to learn. That class of persons will succeed in time. We have seen too many who come with "big" schemes. "Large" ideas, who knew it all, prepared to give pointers to all and sundry; and who vanished. Spring had set in finely; settlers were engaged in harrowing; when down came the blast. At first a gentle, northeast, soft snow-fall, then northwest gales and drifts. Over six inches of snow on the level piled up in drifts makes travelling rather awkward, especially after we have put away our sleighs and are using the wheels for some time. Parties of land seekers out on wheels found themselves in a fix not easily got out of.

The schoolhouse in the White Whale school district is in course of erection by H. McLean, of Stony Plain. It is to be completed by the end of this month.

Mr. Pattison, the farm instructor on the Reserve, has not everything in excellent shape for this season of the year. It was fair to be a successful year on the Reserve. The Stonys have done moderately well in their hunt thus far.

The recent visit to the Reserve by Major McGibbon, Inspector of Indian Agencies accompanied by Agent Jas. Gibbons and Clerk Carruthers was a memorable one. First Agent Gibbons drove the party into an impassable swamp. Then the agent was overhauled by the missionary for his report to the Government regarding the Indians' honesty, truthfulness, morality and Sabbath observance. Next the missionary promised that every Indian breaking 20 acres this summer would receive from the Government a pack of oxen, harness and breaking plow as his own. He also promised that every man erecting a log house 12x12 stores, hewed logs, would receive lumber for flooring and roof, shingles, doors and windows so as to have a respectable house. It has stirred up our people wonderfully, especially as they were promised rations while doing the work. Some have begun already at the new house and several have promised to plow.

Mrs. Leat and family have returned safely from their trip to Ontario, fully convinced that the west is far better as a home.

Mr. McGrandle's survey party have finished in Twp. 53, R. 4, W. of 5th, and have gone 12 miles east of Wapiti, while another party is to be

sent to continue the work in this vicinity. This brings up a practical query: Why not have left McGrandle's party to continue the work here, instead of compelling them to move over 250 miles at great loss of time and at great expense to themselves? Does it not look as if "someone had blundered" at Ottawa or wherever the red tape is measured off? These parties do their work by contract. It is no loss to the Government to order these removals, but it is a great loss of time and money to the surveyors. There ought to be a vigorous kick on the part of someone. We commend this matter to Mr. Oliver's attention at Ottawa.
